Special products in our proven collection

Special products in our proven collection

Good duvets and pillows are essential when making up your rooms. In our collection, you will find everything to stock your linen room. These articles are suitable for industrial laundry and tested for intensive use. Handy, time-saving and of the same high quality as the linen in our rental collection.

A woman with curly hair is wrapped in a white duvet, looking directly at the camera with a slight smile. The duvet is thick and fluffy, covering her from the neck down. A small tag is visible on the duvet near her shoulder.

Duvets

Good duvets are indispensable for your guests' sleeping comfort. Blycolin offers a wide collection of duvets, each with fine features suitable for intensive use. Our duvets are washable, which is important for hygiene, health and durability.

In our collection, we have three different duvets produced by a duvet specialist. With the guaranteed qualities, your guests will be kept warm!

Pure recycled

A 100% recycled duvet with a fill weight of 350gr/m². The combination of Ultrolite® recycled polyester hollow fibers and a microfiber recycled ticking makes for a durable duvet. The tick is made from 100% used and recycled PET bottles. As there is a lot of air in and between the fibers, excess moisture can be dispersed quickly. The duvet is anti-allergenic, washable up to max 40°C and can even be tumble-dried at low temperatures.

Dimensions	Dimensions

Pure Comfort

This duvet has several outstanding features. The Ultrolite® polyester hollow fiber ensures good moisture regulation, as there is a lot of air in and between the fibers. Besides the extra hygienic properties, the duvet with 100% cotton tick remains springy. The Pure Comfort duvet with diamond stitching and a weight of 400gr/m² can be washed up to 40°C and can even be tumble-dried at low temperatures.

Ecodown

The Ecodown duvet is filled with the super soft (siliconised) Aiolite® polyester fiber that feels like down and has a 100% percale cotton tick. This duvet, with block stitching, is permanently springy and regulates moisture very well. It has a weight of 400gr/m². Moreover, it is anti-allergic, washable up to 40 °C and can even be tumble-dried at low temperature. Of course, it is good to air and fluff out a duvet regularly. Ecodown duvets are packaged individually.

Cotton is a valuable resource. That is why we keep looking for ways to reuse materials. In this unique recycling process, strong machines unravel old jeans into small blue cotton fibers. An experienced Spanish family company then weaves the fibers into yarn. These spools are the basis for new bed linen. A completely circular process with which we save thousands of liters of water, power and resources.
