

Duvets

Good duvets are indispensable for your guests' sleeping comfort. Blycolin offers a wide collection of duvets, each with fine features suitable for intensive use. Our duvets are washable, which is important for hygiene, health and durability. Convenient, time-saving and of the same high quality as the linen in our rental collection.

In our collection, we have three different duvets produced by a duvet specialist. With the guaranteed qualities, your guests will be kept warm!

Pure Recycled

A 100% recycled duvet with a fill weight of 350gr/m². The combination of Ultrolite[®] recycled polyester hollow fibers and a microfiber recycled ticking makes for a durable duvet. The tick is made from 100% used and recycled PET bottles. As there is a lot of air in and between the fibers, excess moisture can be dispersed quickly. The duvet is anti-allergenic, washable up to max 40°C and can even be tumble-dried at low temperatures.

*On request only.

Pure Comfort

This duvet has several outstanding features. The Ultrolite[®] polyester hollow fiber ensures good moisture regulation, as there is a lot of air in and between the fibers. Besides the extra hygienic properties, the duvet with 100% cotton tick remains springy. The Pure Comfort duvet with diamond stitching and a weight of 400gr/m² can be washed up to 40°C and can even be tumble-dried at low temperatures.

Ecodown

The Ecodown duvet is filled with recycled (siliconized) Airlite® polyester fiber, made from used PET bottles. This duvet feels like down and features a 100% percale cotton cover. Our supplier of these pillows and duvets supports Better Cotton.

This duvet, with block stitching, is permanently resilient and regulates moisture very well. It has a weight of 400 g/m². Moreover, it is anti-allergenic, washable up to 40°C and can even be tumble-dried at a low temperature. Of course, it is good to air and fluff the duvet regularly. Ecodown duvets are individually packaged.

Duvet bag

Duvets that are not in use should be safely stored without losing their qualities. We have therefore developed a special duvet bag for responsibly storing your duvets.

Item	Dimensions
Duvet bag non-woven black	1-bed
Duvet bag non-woven black	Double

The minimum order quantity is 10 pieces.
