

Duvets

Duvets are very important to the sleep comfort of your guests and are also very convenient for housekeeping to make your beds stylishly in no time. Our duvets are washable, which is important for hygiene, health and sustainability.

Duvets

Blycolin offers five types of duvets in its sales program. We purchase them for you from a business partner that is specialized in developing and manufacturing duvets. The quality is therefore guaranteed.

Microfiber

The Microfiber duvet, with a weight of 350 grams/m², provides guaranteed optimum comfort. The combination of the Microfiber cover with the Hollowsoft filling makes it a supple, soft and comfortable duvet, which embraces the body. The duvet is anti-allergenic and washable up to 40°C and can even be tumble-dried up to 40°C. In short, u duvet with an excellent price/quality ratio.

Size	Prijs p/st

PURE ECO®
by Blycolin

Pure Eco

The Pure Eco duvet is produced sustainably and therefore a nice addition to our collection. The recycled PET filling (rPET) ensures a voluminous, springy and anti-allergenic duvet. The duvet has a weight of 400 grams/m², trapezoid stitching, can be washed up to 60°C and even tumble-dried at a low temperature. The cover is made of soft, pure, 100% organic and Fairtrade cotton, which complies with the strict demands of the Global Organic Textile Standard (GOTS). Honest, pure and clean! By combining an organic / Fairtrade cotton with a recycled PET filling, the ecological and social conditions as well as the stability of small scale producers are all taken into account.

Size	Price/piece
140/200 cm	€ 49,95
140/220 cm	€ 55,95
200/200 cm	€ 73,50

Size	Price/piece
200/220 cm	€ 82,95
240/200 cm	€ 86,50
240/220 cm	€ 89,95

The minimal ordering quantity is 10 pieces.

From bottle to filling

Recycled PET filling is made of plastic bottles and other packaging materials. During a unique process, the waste material is carefully sorted and washed. After grinding it, soft and supple flakes remain, an environmentally-friendly material that is the basis for all sorts of new products, such as the filling for our duvets and pillows. The use of rPET strongly reduces the CO₂ footprint and decreases the amount of waste. This will provide an carefree, peaceful and lovely soft night's sleep.

Duvets

Duvet bag

Duvets, that are not being used, should be stored to retain their quality. For this purpose, we have developed a duvet bag, so you can store your duvets responsibly.

Article	Size	Price/piece
Duvet bag non-woven	single	€ 3,20
Duvet bag non-woven	double	€ 3,65

The minimal ordering quantity is 10 pieces.
